

# Double Doors

Natural light. Superb Views.

**Used internally or externally, double doors offer superb views and flood the home with light and beauty.**

The thoughtful design of double doors means that they are both elegant and robust, with the latter distinguishing them from traditional patio doors.

Double doors can also be fitted to open inwards or outwards. In either case, the result is a grand focal point which makes any home stand out from the street.

# Double Doors

## 01 Glass

Our double doors are glazed using innovative thermally efficient glass so that added light and superb views do not come at the expense of insulation.

## 02 Security

A multi-point hook locking mechanism makes our double doors both stylish and secure. Improved further by an optional Secured by Design bump and snap resistant cylinder.

## 03 Hinges

High security anti-jemmy hinges can be inward or outward opening and are available in a number of colours and finishes.

## 04 Handles

Lever-lever and lever-pad designs are available on all double doors in a variety of colours and finishes.

## 05 Threshold

Threshold options are available to meet specific access requirements.

## 06 Reinforcing

Steel reinforcing gives added strength and durability to products that may be exposed to wild and erratic weather.

## Colour options:

Images are for illustration purposes only. Supplier reserves the right to alter specifications, options, and styles at their discretion.
